

Hes the One

Virginity is overrated. Taylor Sullivan doesn't trust Cupid, but she plays one for a living. As a successful wedding consultant, she creates a couple's ultimate fantasy even though she's never managed to create her own. And when her clients start asking her for wedding night advice, she's sensible enough to know when to enlist help. Cade Harper knows two things about women. They either abandon him, or use him as a walking bank. He doesn't do commitment, and marriage is a dirty word witness the string of broken hearts he's left in his wake. Yet Taylor's business proposition intrigues him. In exchange for one night of no-strings passion, she'll develop a promotional plan for his business. Who could say no? Never one to buy anything sight unseen, Taylor tests the waters with a kiss. In an instant she has the only answer she's ever wanted that Cade is the one she wants. As business starts tumbling into pleasure, Cade finds himself falling hard and fast. It's a fantasy come true if they can turn heartache into forever. This book has been previously published. Warning: Contains explicit, straight-to-the-heart sex between a hopeless romantic heroine and an abandon-all-hope hero. No need to dress up for this party just curl up with a glass of bubbly and a box of tissues!
