

My Beautiful Life: How I Conquered Cancer Naturally

As a top academician, Mina Dobic led a privileged life, but that changed when she was diagnosed with stage IV ovarian cancer that had metastasized to her liver, bones, and lymph system. Given two months to live by her physicians, Mina rejected conventional treatments and decided to adopt macrobiotics. Six months later, Mina Dobic was cancer free. My Beautiful Life both explains how Mina recovered from cancer and details how cancer can be prevented through diet and a philosophy of living in balance with nature.
