

## The Controller: Virgin

The last thing John expects when the hotel room door opens is to see a woman standing there. Sent there by The Controller, John is ordered to fuck the woman's husband and take away his anal virginity. What follows is an evening of forbidden sex and destroyed boundaries. John uses all his skills to turn the tables on the straight guy blindfolded in the room and fucks his virgin ass in front of his wife. Contains graphic scenes of a sexual nature including oral and anal sex, BDSM and other forms of gay sex. Not suitable for minors. ##### This is David and it's his birthday. You're his present, she said softly. I could smell Hermes Le Jardin Sur Le Toit perfume from her neck. He's never been with a man before, but I know that secretly he wants it. You are to do whatever you want to David and anything I instruct you to do you understand? Yes Ma'am, I answered. Good. He is quite experienced in serving women and very compliant so you should have no trouble in using him however you like. In fact, the more painful and embarrassing you make it for him the better, she added. She moved gracefully over to where her husband was seated and ran her fingers through his hair. Say hello to the nice gentleman who has come here to fuck you dear, she said. Good evening Master, he responded. I'd never been in this situation before, but the thought of dominating this straight executive really turned me on. The thought of teasing him and then taking his anal virginity had already made me hard and my cock pressed against the tight fabric of my suit. I could imagine how he felt right now a mix of panic, erotic anticipation and excitement. Having been in his situation so many times, it would be fun to be the one in control.
