

Auriculas Through the Ages: Bears Ears, Ricklers and Painted Ladies

In this unique book established garden writer Patricia Cleveland-Peck tells the story of the auriculas journey from its native Alpine habitat into the gardens of Europe and beyond. She introduces the reader to some of the interesting characters who felt passionately about the auricula and discovers the important social role it played as it was transformed by skilled florists from the simple Bears Ear to one of today's most refined and exquisite cultivars.
