

## Borrowing My Mothers Saints

What can you possibly do when your dazzling life starts unraveling before your eyes? For Julianna Di Santis, a thirty-three-year-old ad executive whose dream life in New York City is crumbling before her very eyes, it might just mean calling in a few good souls to save her. *Borrowing My Mothers Saints* is the heartwarming, humor-filled book by Olga G. Soaje that charts one young woman as her life suddenly hits the skids, and only a much higher order can help to set it right. With a plum job at Nelson and Nelson ad agency, a Manhattan apartment, and a boyfriend named Michael who looks good enough on paper, Julianna is at the peak of her game. That's when everything starts going south fast. Nancy, her nemesis at work with a fake smile (and other body parts!), has somehow stolen her account. Her boss, Peter, deems her burned out and sends her out the door with her cardboard box. And that's just the beginning of the rapid-fire onslaught of serious woes. After Michael dumps her squarely, her mom is diagnosed with breast cancer. Julianna is officially at her wits end. However, just as she's in the deepest despair, enter a cast of characters that Julianna hasn't seen since her childhood days at home and in her Catholic grade school. Tucked away in her mother's recipe box is a bounty of saints cards, and soon, those the saints come marching in to represent a source of strength her mother had found in them and a way to develop other career paths she had not considered on her road to happiness. Julianna slowly learns to look at life, work, and relationships in an entirely new light. A warm hug of a book, *Borrowing My Mothers Saints* is chock-full of insights, hope, humor, and a dash of modern romance. Inspiring and of-the-moment, this charming, lighthearted look at contemporary life will move you to muster the courage to follow your heart on a path that might just lead you to everyday

miracles.
