

London Blues

The chance discovery of a 30 year old blue movie leads back to the films maker, Tim Purdom, and the London of the late fifties and early sixties. Purdom was a pioneer of the B&W British porno film and a figure on the periphery of the Profumo sex scandal. He directed eight films...but who was directing him and what was their hidden agenda? And where is Tim now? London Blues explicitly and unremittingly details the hidden world of Soho vice and Londons demi-monde at the time when the grey 1950s were giving way to the swingin sixties. It is a dramatic and compelling venture into the secret history of our time -- a provocative and totally original novel.
