

Change (Seagull Books - What Was Communism?)

In *Change*, Mo Yan, the 2012 Nobel Laureate in Literature, personalizes the political and social changes in his country over the past few decades in this novella disguised as autobiography or vice-versa. Unlike most historical narratives from China, which are pegged to political events, *Change* is a representative of peoples history, a bottom-up rather than top-down view of a country in flux. By moving back and forth in time and focusing on small events and everyday people, Mo Yan breathes life into history by describing the effects of larger-than-life events on the average citizen. Through a mixture of fantasy and reality, historical and social perspectives, Mo Yan has created a world reminiscent in its complexity of those in the writings of William Faulkner and Gabriel Garcia Marquez, at the same time finding a departure point in old Chinese literature and in oral tradition.
