

Shadows and Dreams-The Art of Christophe Vacher Vol 1

Two-time Emmy Award Winner and Annie Award Nominee Christophe Vacher brings together for the first time a compilation of his personal Art mixed with works for the movie and gaming industries. In this first volume, Christophe Vacher introduces a wide range of pieces, illustrating his versatile career, alternately as a painter, concept artist/illustrator and art director. From his haunting and dream-like personal paintings often inspired by his European background and the Imaginary Realism movement, to his animation and movie work for major Hollywood studios, along with a variety of concept art and illustrations for the entertainment industry, the book presents a selection of both traditional and digital artworks, spanning over a period of more than 20 years. This edition contains both English, French and Chinese translations all combined within the same book.
