

## Clash Of The Giants

CLASH OF THE GIANTS This book tells the result of Ethnocentrism and Tribalism. It centers around Tillikai, a Native land on the west coast of Africa. First, the coming of migrants to Tillikai brought huge setback in the land. The activity ignited a war of vengeance between the Zondos and the Tislos, two of the fourteen indigenous tribes of Tillikai. The story in this book posed a threat to the quest for power and individual supremacy. It also addressed the early life of West Africans before the arrival of western civilization in the region.
