

Invisible Monsters: A Novel

Love, betrayal, petty larceny, and high fashion fuel this deliciously comic novel from the author of *Fight Club*. She's a fashion model who has everything: a boyfriend, a career, a loyal best friend. But when a sudden freeway accident leaves her disfigured and incapable of speech, she goes from being the beautiful center of attention to being an invisible monster, so hideous that no one will acknowledge that she exists. Enter Brandy Alexander, Queen Supreme, one operation away from becoming a real woman, who will teach her that reinventing yourself means erasing your past and making up something better. And that salvation hides in the last places you'll ever want to look.
