

Persian days

A fascinating travelogue through southern and central Iran, this early nineteenth-century account is written with wit and insight; the polymathic Copley Amory Jr. proves an able tour guide. The reader is taken from Tehran to Kerman and back, along a trail that highlights ancient sites of historical importance. Along the way, the culture of tribes and tents is described, as well as a plucky misadventure involving encounters with camel caravans and excessive automobile troubles. Written in a witty and engaging style, this account of a classic journey contains an education in the history and customs of a vanishing way of life.
