

Hot On His Trail (Mills & Boon Intrigue)

The trial was supposed to be television reporter Shea Sinclairs big break - her chance to show the world she wasnt just some empty-headed weather girl. Then she became the story when Nick Taggart, a contractor on trial for murder, bolted from the courtroom and took her with him - at gunpoint. But she soon found herself an all-too-willing hostage. This man was dangerous, all right - especially to a woman who looked too long into those beautiful blue eyes of his - but he was no murderer. And she intended to help him prove it. Because when they were finished running from the law, she was going to make him her prisoner - for life.
