

## The Authority: The Lost Year Book 1 (Authority (Unnumbered))

Best-selling writers Grant Morrison and Keith Giffen co-plot this extraordinary series filling in the gaps to explain where The Authority was just before the Worlds End event that relaunched the WildStorm Universe, how they escaped from a horrifying alternate reality, and at what cost. From Morrisons first two issues revitalizing the team as WildStorms marquee heroes, Giffen took over chief writing duties with a story that saw the teams interdimensional ship the Carrier power down and strand The Authority on an Earth in a reality they dont recognize. Their powers barely work, and to add insult to injury, in this universe, theyre not only unknown to the population, theyre horror of horrors comic book characters. Will they make it back home? And if they do, will there be a home left to make it back to?
