

## Step Checkup (Medical First Time Taboo Erotic Romance)

When Kim finds herself getting a checkup from her new doctor, she cant help but be turned on by him. Thats somewhat normal, right? But what if your doctor is also the alpha man who raised you? Then I guess it all depends on your definition of normal. Kim has had a crush on him for years, but this is the first time hes ever touched her, or seen more of her than any other man ever has. Despite being in college, shes shy, innocent and untouched, always having a hard time coming out of her shell and meeting guys. But all thats about to change. Her step doctor isnt going to be satisfied with just seeing and touching her. Its his job to teach her, and its time she learns to fuck!
