

Fallout: A Novel (P.S.)

Luke is a young playwright intense, magnetic, and eager for life. He escapes a disastrous upbringing in the northeast and, arriving in London, meets Paul Driscoll, an aspiring producer, and the beautiful, fiery Leigh Radley, the woman Paul loves. The three set up a radical theater company, living and working together, forging a romantic connection in candlelit rehearsal rooms during power cuts and smoky late-night parties in Chelsea's run-down flats. The gritty rebellion of pub theater is fighting for its place against a West End dominated by racy revue shows and the giants of twentieth-century drama. Nina Jacobs is a fragile actress, bullied by her mother and in thrall to a controlling producer. When Luke meets Nina, he recognizes a soul in danger but how much must he risk to save her? Everything he has fought for loyalty, friendship, art is drawn into the heat of their collision. Now everything Luke values, even the promise of the future, is in danger. Suddenly the fallout threatens to be immense.
