

Fingeralphabet Basic–Belgium/Flanders is a manual that includes the approved and redrawn signs of the Flemish manual alphabet and of the numbers 0-10. This book is part of a set of manuals that accompanies the free PDF versions of the international manual alphabets on Fingeralphabet.org. It is designed for libraries, institutions and individuals who need the information in a different form and/or more facts than a single sheet of paper could possibly provide. All the hand signs are shown from two view points, to facilitate understanding. The texts in this book are in English. By buying this book you are supporting the pro bono publico project Fingeralphabet.org at www.fingeralphabet.org. Its aim is to document all the existing manual alphabets worldwide and to provide free basic information for educational purposes. Lassal's work on Fingeralphabet.org has earned her a nomination for The German Prize for Civic Engagement 2013.
