

## Flings: Stories

In a new suite of powerful and incisive stories, Justin Taylor captures the lives of men and women unmoored from their pasts and uncertain of their futures. A man writes his girlfriend a Dear John letter, gets in his car, and just drives. A widowed insomniac is roused from malaise when an alligator appears in her backyard. A group of college friends try to stay close after graduation, but are drawn away from - and back toward - each other by the choices they make. A boys friendship with a pair of identical twins undergoes a strange and tragic evolution over the course of adolescence. A promising academic and her fiancée attempt to finish their dissertations, but struggle with writers block, a nasty secret, and their own expert knowledge of Freud.
