

## Natures Patterns and Designs Coloring Books: Even More Rocks (S M Coloring and Shading Books) (Volume 8)

A different type of coloring book, S M Coloring and Shading Books and Natures Patterns and Designs Coloring Books can be as challenging or as simple to color as you wish. The pictures are sketch-like and intentionally printed lighter, so that you can color over the gray. (Read below for more details.) Visit our Facebook page S M Coloring and Shading Books for examples, ideas, techniques and more. In the Natures Patterns and Designs Coloring Books series, there are pictures of multiple subjects that can each be colored a bit differently to show the variety of that subject. There are also close-ups in some of the books to color as if you were studying the subject. For a more challenging experience, use the gray shading in the picture as a guide to work on shading techniques. We like to color over or outline the darker areas with one or a few shades of a color, then color the lighter areas with a contrasting or lighter shade. For a simple coloring experience just color the picture, the gray may show through depending on what you are coloring with and your technique, this will give some depth to the picture. You can always outline in black if you prefer that look. Do you find rocks interesting? All those different patterns and colors. Natures Patterns and Designs Coloring Books, Volume 8: Some More Rocks, contains 30 more pictures of rocks both in a group and up close to color. (About two-thirds of the pictures are close up pictures.) Included in this volume are Agates, Banded Travertine, Kakortokite, Luxullianite and more. The names of all rocks are included to get you started. Nature provides some interesting patterns and designs, why not color them? Natures Patterns and Designs Coloring Books are a bit more challenging then other coloring books, the pictures are taken right from nature including rocks, leaves, shells, animals, wood and more. Color the interesting patterns and designs however

you want, abstract or realistic. Each book contains 30 pictures and the name of each, (except Volume 9: Tree Rings and Wood Grain),so if you wish, you can research the right colors to get you started. Pull out your pastel pencils, colored pencils, crayons, markers or whatever you like and start coloring. (Some techniques may bleed through the paper so put extra paper in between if needed.) The pages are one-sided to enable you to take a picture out if needed for technique, framing, or a gift and not miss out on coloring the other side or have it bleed through.
