

How to create your own web graphics and social media banners

Selling your business online comes down to powerful imagery. In this ebook, I'll show you how to create your own custom-made web graphics and social media banners. (Note the only difference as to whether it's for a website or a social media banner is in the sizes you set and the location to which you load it). I'll show you some of the best software to use when you are a small business and how to get the most out of it quickly.
