

## Lower Your PSA in 28 Days and Combat Prostate Cancer

PROSTATE PROBLEMS? HIGH PSA? READY TO ESCAPE THE MAZE OF PROSTATE TREATMENTS? GIVE THE ROLLER REGIMEN PROGRAM 28 DAYS! Prostate dis-ease brings about a maze of hazy information and brutal treatmentscutting, biopsies, chemotherapy, cryosurgery, radiation, and the list goes on!

Why not take the 28-day route to good health and escape the potential side effects of impotency and incontinence? After my initial visit and first biopsy, the urologist determined I had Stage 1 prostate cancer and a PSA of 5.0. I was scheduled for a re-examination in 6 weeks with prostate surgery to follow immediately afterward. However, I was haunted by what I had heard from other men who had gone through the surgeries and other treatmentsImpotency! Incontinence!

Luckily, I was married to a tenacious woman who said, There has to be another solution, we cant just give up, roll over and let them do this to youand to US! We had only been married for 6 years, still newlyweds. Our minds screamedTHERE HAS TO BE ANOTHER WAY! And, gentlemen, I am here to tell youTHERE IS! After researching and deciding against further medical treatments, we developed a completely non-invasive 28-day program which offers no side effectsThe Roller Regimen Program. It entails a healthy, real-food diet, a few inexpensive over-the-counter supplements, and simple acupressure point stimulation (on the hand). It encompasses a menu plan, grocery lists, and even recipes. It not only lowered my PSA four times (by as much as 60% in 28 days), but my initial Stage 1 prostate cancer was eliminated with no reoccurrence after 10 years. 28 days VERSUS MY LIFE and OUR SEX LIFE, for us the decision was easy! If you are ready to escape the maze, give the Roller Regimen Program 28 days. WHAT HAVE YOU GOT TO LOSE? Warren M. Rodgers
