

Wedding Photography Improve Quickly

LEARN, IMPROVE QUICKLY! THEN SMILE, LAUGH, SMILE AGAIN.

After 45-years as a professional wedding photographer in the Midwest regional markets of Indianapolis, Cincinnati and Dayton, Ohio, I have a lifetime of knowledge, learning, advice and experiences to share with you. From my unique vantage point, it seems that the biggest thing that keeps people from improving as quickly as possible as a wedding photographer, is that they really don't know what they need to learn. I want to help guide you in your learning, so you go down the most easily traversed straight road towards knowing what you are doing, while helping you avoid all those dangerous steep learning curves along the way. This book just might let you gain 45-years worth of knowledge and experience and make learning easy and quick for you, all in one easy and entertaining read. I've even included five of my Most Vital Business Documents: (1) Master Wedding Post List, (2) Pre-Wedding, info gathering, Wedding Questionnaire [made pre-wedding meetings with the bride obsolete!], (3) My lawyer drawn Wedding Photography Agreement, [has some really unique features, cost me hundreds to get written], (4) My powerful sales email, that got me hired by hundreds of brides, without even meeting them, and (5) My assignment Report Card, which was included in every wedding album of photos sent out, to gather feedback and valuable client endorsements. After guiding you through what you really need to learn and know about becoming and being a good wedding photographer, in the first third of the book; I relate my own career, memoir style, in the final two-thirds. ~ ~ ~ Memoir portion of the book answers the questions: WHAT ...humorous stories do I have to tell about what all I've seen? ...sticky situations did I encounter? ...kind of people did I have to

deal with/how did I do it? ...mistakes did I make? ...life lessons did I learn along the way? ...did I do to quickly double my annual income?
