

How To Stop Hair Loss & Regain Your Hair: Compendium of Knowledge about effective methods of stopping hair loss

Learn the secrets for disclosing which pharmaceutical company would most want to hang me. FACT1 The most common cause of hair loss is a lack of knowledge about how to take care of it, so that your hair stays healthy. FACT2 Research confirms that people with healthy and lush hair are seen as more attractive, which results in better relationships and greater success with the opposite sex, as well as higher earnings! FACT 3 People affected by baldness may stop this process and largely recover their hair using certain methods. My story When I came across the problem of hair loss, I began to search for information, ask doctors, experts, read books about hair care about Chinese medicine and visit foreign websites. I tried every new method introduced and today I can say that some of these methods were complete nonsense whilst others really worked. After that I started to have some repeated effects and friends began to suspect me of having had a hair transplant. I explained to them that I used natural methods known for 3,000 years. They could not believe that it gave such effects. I began to be asked about what and how it is applied. After about two months, I began to receive the first calls for a beer as a token of thanks for the advice given. After that success, my friends and I decided that share our knowledge with others and thats how the e-book entitled How to Stop Hair Loss and Regain Your Hair came about. You get: >Does hair really have to fall out? >What is the REAL reason for hair falling out? >What kind of baldness affects you? >What do you absolutely need to avoid while fighting for your hair >What steps do you need to take initially? >A highly effective remedy is available for free to help you regain your hair. >What the most effective methods of preventing sudden hair loss are. >What you need to start doing now to regain your hair. >Secrets which pharmaceutical companies

do not want you to know about. >What shampoo should you choose? >80% of us wash our hair wrongly. Find out how to do it. >What pharmaceutical substances and remedies are used in the fight against hair loss? Pros and Cons - the Facts! >What do you do to nourish the roots of your hair? >What methods will be available in the future? You can learn about them now. >Is a hair transplant really the solution? >How can you effectively disguise hair loss, so that no one notices?
