

Nursing Home Survival Guide

As a result of the aging of our population and the fact that Americans are living longer and longer, more and more Americans are developing chronic illnesses that require long-term care, and we all face increasingly difficult challenges and more transitions in our lives than ever before. One of the most difficult transitions that Americans must face for themselves and their loved ones is the final move - a transition that's made by over 40% of the American population - the move to a nursing home. Rich, poor, or somewhere in between, 99 percent of Americans can't afford to ignore the potentially catastrophic costs of nursing home care and other types of long-term care, such as assisted living and in-home care. In fact, long-term care costs are so high that 70 percent of Americans become impoverished within a year of entering a nursing home. Chances are that someone close to you has lost their dignity and their life savings by winding up broke in a nursing home. This Nursing Home Survival Guide is designed to provide much-needed information and answers to the important questions you will encounter as you go through this challenging transition. The Nursing Home Survival Guide is the definitive guide for helping you protect your loved ones who need nursing home care by preserving their dignity, quality of life, and financial security. This book provides invaluable information and guidance to families dealing with the possibility of nursing home care and struggling to make the best decisions for themselves or their loved ones. If you're a Baby Boomer or older, this book also helps you gain the peace of mind of knowing that there are ways to not outlive your money. Author Evan Farr is a Certified Elder Law Attorney and the creator of the Living Trust Plus(tm) Asset Protection System used by dozens of Estate Planning and Elder Law Attorneys around the country, and is widely recognized as

one of the foremost experts in the nation in the field of Medicaid Asset Protection and related Trusts.
