

The Field Guide to Dinosaurs (Field Guides)

The Petrified Forest of Arizona seemed like the perfect place to start to search for fossils, writes our hero in his 1929 journal. Thus begins the exciting hunt for dinosaurs and their prehistoric secrets in *The Field Guide to Dinosaurs*. Through a series of journal entries, kids will uncover the mysteries of the dinosaur kingdom from the speedy and agile *Coelophysis* to the existence of Pangaea, the landmass of the earth some 227 million years ago when all of the continents were one. Junior paleontologists can experience the excitement of a dig as they rifle through maps, illustrations, and build eight dinosaur models and a museum-ready diorama. Dino-crazy kids ages 8 and up will dig this lively adventure!
