

The Land of the Leal (Canongate Classics)

This huge novel, closer in scope to a Russian epic than to any English counterpart, opens at the turn of the century in the extreme poverty of the Rhinns of Galloway, an agricultural backwater of the southern-most part of Scotland. A thinly disguised autobiographical tale, *The Land of the Leal* narrates the journey of Jean Ramsay, an aggressively practical woman from a peasant background, and her weak-willed, poetic husband, David. It spans three-quarters of a century of Scottish life, tracing the couples wanderings from the idyll of their childhood in Galloway, through work for the landed gentry in the Borders and Fife, to their fall from grace in the depression years in industrial Glasgow. Inevitably, as their children are born and grow up and as the years slip away, their rural background becomes another Eden, yet Barke keeps sentimentality in check with his reflective description of the changing face of Scottish society, in which Jean and David are pawns in the development of economic cause and political effect.
