

## Land Rovers: Series I, II, III & Defender

Designed as a utilitarian vehicle for farmers, the Land Rover has become an automotive legend the best 4x4 x far. Infinitely flexible, they have appeared in short, medium and long wheelbase variants, with a host of body styles and conversions for everything from sixwheeled fire engines to motor homes. It is more than sixty years since the prototype was built in 1948 and the Land Rover of today still resembles the original although creature comforts may be more evident on the latest Defender models. Whatever form it takes, the Land Rover is one of the few vehicles that can be found on every continent of the world, and it is said that around 70 per cent of all Land Rovers ever made are still in daily use. Multiple Land Rover owner John Christopher tells the story of the proper Landys, the Series I, II, IIA, III and the Defender. He also looks at the FCs, the military and emergency service vehicles, special projects, off-roading and the celebrity cars.
