Showing many styles of landscape painting, this broad survey of contemporary artists and their work is highly instructive for art enthusiasts of all types, from student and skilled painters to novice and experienced collectors. The book examines the work of several of today's most accomplished landscape artists, covering every aspect of the genre. As the artists analyze one or more of their paintings fully, and explain, in their own words, their motivation, technique, approach to composition, and use of color, the reader is able to compare styles and gain a greater understanding and appreciation of each.
