

## Stories From Life (German Edition)

To make a life, as well as to make a living, is one of the supreme objects for which we must all struggle. The sooner we realize what this means, the greater and more worthy will be the life which we shall make. In putting together the brief life stories and incidents from great lives which make up the pages of this little volume, the writers object has been to show young people that, no matter how humble their birth or circumstances, they may make lives that will be held up as examples to future generations, even as these stories show how boys, handicapped by poverty and the most discouraging surroundings, yet succeeded so that they are held up as models to the boys of to-day.
