

Mosbys 2004 Nursing Drug Reference - CD-ROM PDA Software, 1e

With just a few taps of the stylus, users can have quick, convenient access to all the valuable information in Mosbys 2004 Nursing Drug Reference! Adaptable, convenient, and highly portable, Mosbys 2004 Nursing Drug Reference Handheld Software includes all the information nurses needed for safe, accurate medication administration. In addition to all of the great content found in the print version, this handheld software also contains Nursing Drug Dosage Calculators, a Similar Drug Names Database (containing over 1,700 pairs of easily-confused drug names), and expanded coverage of SI Unit Conversions, Symbols, and Units of Measure. Plus, an easy-to-use, comprehensive index makes the process of pinpointing vital information faster than ever. Mosbys 2004 Nursing Drug Reference Handheld Software is navigated through the MobiPocket ReaderPro, making it virtually platform-independent. It is compatible with the PalmOS, Windows CE, and Pocket PC--as well as 4 other operating systems. The ReaderPro is small enough (max. size is 700KB) that it will not slow down even older devices, and it offers many useful built-in features, including full text search, annotation and highlighting capability, capability, bookmarks with easy link-style navigation, adjustable font size, type, text alignment, and color, multiple indexes, removable memory card support, and a customizable toolbar. Contains 20 new monographs for drugs recently approved by the FDA (Appendix A) to provide the very latest drug information. Includes a table of newly approved key drugs with generic names, trade names, and uses. Presents more than 2,000 new drug facts, including patient/family teaching guidelines as well as updated drug interactions, side effects, precautions, contraindications, and IV therapy facts. Offers a Similar Drug Names Database that puts over 1,700 drug name

pairs at the users fingertips, for quick, efficient confirmation and patient safety. Includes Nursing Drug Dosage Calculators to provide users with quick, portable confirmation of key drug calculations. The CD-ROM version of this handheld software is not Mac-compatible. All Mac users must purchase the downloadable version (ISBN 0-323-02723-7). See link to this product under Companion Products.
