About the Author Bret Williams, for over 20 years, has engineered the creation of hundreds of websites, including many profitable e-commerce properties and several Internet firsts. Beginning with version 1.3 of Magento CE, Bret began an odyssey of becoming one of the foremost experts on leveraging Magento to build successful

online businesses. Today, as CEO of novusweb llc, Bret continues to provide e-commerce management services from his office in Austin, Texas. Bret authored the wildly popular Mastering Magento, and he is the co-author of Magento 2 Administrators Guide (Packt Publishing) with his wife and business partner, Cyndi. His company also owns MageDaily.com, a Magento news and reviews blog, and MageRevolution.com, which sells Magento enhancements. Jonathan Bownds is an e-commerce professional living in the sunny climes of Austin, Texas. He got his start working in technology around 1998, and he promptly gravitated toward Linux, system administration, security, and open source projects. He's been embroiled in something related to one of these topics ever since. He is currently a partner at Praxis Information Science (www.praxisis.com), a web development company that specializes in tackling interesting Magento problems and helping merchants make a go of it in the wild and woolly frontier of e-commerce. Beside work, he enjoys spending time with his wife and two boys, playing tennis, reading, and in an ongoing search for the best breakfast taco in Texas.
