

MCSE Training Guide (70-227): Installing, Configuring, and Administering Microsoft Internet Security and Acceleration (ISA) Server 2000

This book is based on the objectives of Microsoft MCSE Exam 70-227, which is already in development at Microsoft as part of the MCSE 2000 curriculum. It covers all relevant exam material. This will not just prepare individuals to answer questions on an exam, but will help the individual understand the product and learn to work with it. It covers the exam objectives as outlined by the exam creators, not just with pat textbook answers, but with explanations, examples, and discussion focused on real-world implementation.
