

Silver Ties (Silvers Book 3)

Silver Ties is the exciting prequel to the Masters Boys series. A serial killer is preying upon gay men in Los Angeles. Detective Cassidy Ryan of the LAPD is out to stop the monster before more mutilated corpses turn up. The victims have one thing in common and it leads back to an infamous online club called DOMZ.com. The website owner, Zachary Teak, is stunningly gorgeous and infuriatingly uncooperative. Having spent years in vice, investigating crimes fueled by pornography, Cassidy hates the Dom on sight. Zack Teak is a wealthy man and a popular Dom with a long waiting list of subs who beg to lick his boots. The moment he meets the detective, a former Navy SEAL, he is determined to help the handsome, blond hunk explore his own submissive nature but Cassidy is having none of it. As Cassidy closes in on the killer, he succumbs to Teak's charms, finding that it's okay to give up control and let Zack take charge. Join the men as they flush out a killer while trying not to become victims themselves.
