Publie en decembre 1931. Cette ?uvre qui atteint au depouillement de la tragedie, est prefatee par son ami Andre Gide, valut le prix Femina a Antoine de Saint-Exupery et le consacra comme homme de lettres. Cet ouvrage fut un immense succes et a connu de multiples traductions. Son adaptation cinematographique fut meme vendue a Hollywood. Le personnage principal, Riviere, est inspire par son chef Didier Daurat. Il donne vie a un chef qui sait pousser ses hommes au bout deux-memes pour la realisation de leur mission : le courrier doit passer a tout prix, la mission depasse en valeur la vie humaine. Les valeurs que le roman vehicule sont : primaute de la mission, importance du devoir et responsabilite de la tache a accomplir jusqu'au sacrifice. Son action se situe en Amerique du Sud, a l'epoque heroique de l'aviation commerciale. Saint-Exupery, qui fut en 1929 directeur de l'Aeropostale d'Argentine, raconte la vie menee par le chef d'une compagnie aeropostale, Riviere, et par son equipe de pilotes. Le principal but que s'est fixe Riviere, le premier personnage du roman, est de prouver que l'avion est un moyen de transport plus rapide que le train pour acheminer le courrier, a condition d'imposer aux pilotes les vols de nuit, extremement dangereux, qui permettent de ne pas perdre le temps gagne le jour. Fabien, un de ces pilotes, ramene de l'extreme sud vers Buenos-Aires le courrier de Patagonie : mais pris dans une tempete, il ne parviendra pas a rejoindre son port d'attache. Il se sera sacrifie, comme tant d'autres, pour que l'entreprise de Riviere reussisse. A terre Riviere apprend a ses hommes a n'avoir pas peur de la mort et a rester fideles a la mission qui leur a ete confiee. Ils doivent agir comme si quelque chose depassait, en valeur, la vie humaine : le courrier est sacre, il est indispensable qu'il arrive a destination chaque jour a la meme heure. Les pilotes en sont

responsables, ils le savent et cest la leur raison de vivre. Impitoyable, Riviere denonce les faiblesses et sanctionne les defaillances. Il lui est indifferent de paraitre juste ou injuste. Il renvoie tel mecanicien des quil a commis une erreur dans le montage dun moteur malgre ses vingt ans de service, humilie tel pilote qui a manque daudace, punit tel chef daeroplance pour navoir pas observe les instructions, quand la femme de Fabien viendra le trouver pour avoir des nouvelles de son mari. Il ne lui dira rien et elle comprendra que, pour elle, lattente est finie. Riviere pense alors que la verite de lamour et la verite du devoir sont contradictoires et pourtant aussi valables lune que lautre. Malgre la perte dun equipage ce qui est pour lui une grave defaite il ne suspend pas un seul depart, afin que la cause des vols de nuit ne soit pas perdue. Le temoignage de Saint-Exupery sur la vie des pilotes de ligne est depouille de toute litterature. Il retrace une experience vecue et il montre comment lui-meme et ses camarades aviateurs etaient prêts a renoncer a tout ce qui les touchait individuellement pour defendre une cause qui leur semblait legitime. Dans cet ouvrage, Saint-Exupery a defini deux types dhommes : le chef qui forge des volontes et le sujet qui execute les ordres, en acceptant les risques que comporte le metier quil a choisi. Entre eux il n y a pas de rapports de maitre a esclave, mais dhomme a homme, la liberte consistant pour lun et lautre dans leur adhesion totale a une contrainte, dans leur soumission a un devoir. Cest en respectant cette contrainte quil prennent conscience de leur grandeur et cest a travers laction quil sont en mesure de realiser limportance du devoir, quand laction est orientee vers un but que lon sest fixe hors de soi. Telle est la morale qui se degage de ce livre et qui annonce les principes sur lesquels Saint-Exupery fondera son ethique telle quelle apparait dans ses ouvrages posterieurs, dans Terre des hommes notamment
