

Philippines Map

Philippines 1:1,200,000 Travel Map, waterproof, GPS-compatible, 2011 edition, REISE This map is waterproof and tear-resistant, highly suitable for tropical climate of the Philippines, durable enough to survive time spent in the rucksack, pocket or on a restaurant table. It is double-sided to provide the best balance between a good scale and a convenient sheet size (size 100 x 70 cm / 39.5 x 27.5 in) with topographic and tourist information. Islands north of Luzon and at the south-western corner of the country around the Tawi-Tawi Island are shown on insets. Topography is presented by altitude colouring with contours and spot heights. Seasonal rivers and coral reefs surrounding the islands are also indicated. Internal administrative boundaries are shown with names of the provinces. Road network includes unsurfaced local roads and seasonal tracks, and indicates driving distances on main and secondary roads. Railways, local airfields and ports are also shown, with ferry routes between the islands. Symbols highlight various places of interest, including national parks and wildlife reserves, beaches, surfing and diving sites, etc. The map has a latitude and longitude grid at intervals of 1°, plus an extensive index of localities, with a separate list of national parks and reserves. Map legend includes English.
