

Bared and Tamed

When she is unfairly blamed for the loss of a key contract, Rylie Duncans hot temper along with a few too many drinks and a handy cell phone may destroy her entire career. The inebriated messages sent to her bosses cost Rylie her job, but it is the foul-mouthed voicemail left for Neill Sullivan, CEO of her companys biggest rival, which turns out to be her undoing. In the years since he lost his wife, Neill devoted his energy to his work. Women were a distraction he did not need until Rylie and her fiery temper awoke desires he had not felt in a long time. Her slanderous voicemail presents the opportunity to satisfy both his own needs and hers as well needs she doesnt yet know she has. Ordered to appear in Neills office or risk the voicemail becoming public, Rylie obeys but is totally unprepared for what follows. Before the evening is over she is stripped naked and bent over his desk for a paddling and then, to her dismay, she cannot help but beg for Neill to take her right there in his office with her cheeks blushing and her bottom still hot and sore. Neills plans for Rylie dont end that evening, though, and for the next six months she will work two jobs. During the day she will be a well-paid executive at Neills company, but at night she will serve in his home at his whim. To her surprise, Rylie soon discovers that both roles have their rewards, and she begins to enjoy the evenings she spends naked, awaiting her masters instructions. But as the end of her six months approaches, can Rylie and Neill turn their newfound romance into more than just a temporary arrangement?
