

Buffalo: The Life and Style of Ray Petri

Buffalo quietly defined the look of 80s youth culture, especially in the UK, and this legacy of an uncompromisingly urban style has since inspired legions of designers, stylists, and photographers who were part of the gang, but who absorbed and understood the images and references and made them their own in cities the world over. From the simple combo of the ubiquitous MA-1 flight jacket and an old pair of Levis (Rays own uniform), to the rarified clothing produced by cutting-edge designers, Petris legacy of style and the Buffalo stance is still alive and making its presence felt on the biggest catwalk of them all: the street. Many people have defined the 80s as the decade in which style triumphed over substance, but Petris work under the Buffalo label was, in many ways, the antithesis of what was dubbed the matte-black designer decade. Like the magazines *The Face*, *i-D*, and *Arena*, which showcased Petris work, Buffalo was far more logically a product of the DIY post-punk aesthetic than it was an embodiment of the self-consciously slick 80s image-making. Buffalo was, first and foremost, about a certain kind of hip, urban attitude one not for sale in stores, but yours to create.
