

Soul Food: Fifty-two Principles for Black Entrepreneurial Success

Soul Food retells with candor the singular stories of fifty-two real entrepreneurs and it presents the practical ideas and principles culled from each. These are wisdom-filled snapshots detailing the lessons and triumphs of African American business builders. Soul Food fills a gap in the small business literature and presents the challenges and solutions that are of immediate significance to this large community of entrepreneurs. Written by a nationally recognized business consultant and speaker, this book covers all of the pathways to business success, but from a uniquely African American perspective.
