

South African Surf: The Swell Seekers Guide

Surfing South Africa is a simple, down-to-earth exploration of the countrys top surfing destinations, from the most popular spots which feature widely on the local, national and international surfing event calendar to those secret hideaways that surfers like to keep to themselves Well written with wit and a refreshing subjectivity by Daniel Beatty and Craig Jarvis insiders in every sense, of the surfing world this fascinating account examines not only the waves that are to be caught off South Africas beaches, but what lies beyond and beneath: which beach offers the worlds best ice cream, which is South Africas most sought-after wave, and even how geological phenomena affect the impact of waves on southern Africas shoreline. Funny, irreverent and forthright, this is a must-have guide to the beaches and shores of the continents most popular surfing playground.
