

Stonehenge: 2000 B.C.

Four thousand years ago, a stranger's death at the Old Temple of Ratharryn, and his ominous gift of gold, precipitates the building of what for centuries to come will be known as one of mankind's most singular and remarkable achievements. Bernard Cornwell's epic novel *Stonehenge* catapults us into a powerful and vibrant world of ritual and sacrifice at once timeless and wholly original, a tale of patricide, betrayal, and murder; of bloody brotherly rivalry; and of the never-ending pursuit of power, wealth, and spiritual fulfillment. Three brothers, deadly rivals, are uneasily united in their quest to create a temple to their gods. There is Lengar, the eldest, a ruthless warrior intent on replacing his father as chief of the tribe of Ratharryn; Camaban, his bastard brother, a sorcerer whose religious fervor inspires the plan for Stonehenge; and Saban, the youngest, through whose expertise the temple will finally be completed. Divided by blood but united, precariously, by a shared vision, the brothers begin erecting their mighty ring of granite, aligning towering stones to the movement of the heavenly bodies, and raising arches to appease and unite their gods. Caught between the zealotry of his ambitious brothers, Saban becomes the true leader of his people, a peacemaker who will live to see the temple built in the name of salvation and regeneration.
