THE FIRST BOOK IN THE L.A.P. TRILOGY Follow the escapades of best friends Leanne, Aisha and Phillipa. Three single ladies who are a product of the ladette culture, they party hard, play by their own rules and are definatly not to be messed with. That is until one of them gets unwanted attention from an obsessive secret admirer. Throw into the mix a Police Detective, and a Private Investigator, who besides falling hard for one of them opens a large can of worms that is very close to home for one of the girls. Add to this the investigators ex girlfreind and his wacky assistant and let the ride begin. As the story unfolds it takes them travelling from the vibrant City streets of Manchester to the Swedish mountains and the the beautiful capital City of Stockholm. They say the course of true love never runs smoothly, well when your dragging along with it two attempted murders and a crazed obsessive its hardly suprising

----- I know, she replied closing the door, pressing a key fob the Red Range Rover Sport blinked into life, she walked over opened the drivers side door and got in. Her dress had risen up showing even more of those gorgeous long legs. He had gone, he knew it, she knew it, he was putty in her hands and she loved it.

Even though she really liked him and thought that there was a great conection between them. She had decided to take it slowly she had a little girl to consider in all of this and she came first every time. Mike thanked her for the lift and dinner, which she insisted on paying for which really did not sit well with him. He kissed her on the cheek and went to walk away, Lee grabbed his arm he turned around as she walked up close to him, kissing him full and hard on the lips. She pulled slowly awaythanks for

tonight I had a really good time she said. Then she turned and went into her apartment waving as she shut the door.

----- He yawned and tried to stretch but he couldn't move his arms he heard the sound of metal on metal, on looking back over his head he saw the familiar sight of handcuffs, his handcuffs, that crazy bitch had handcuffed him to the metal headboard.

----- He had just finished his shift and was relaxing at home brushing the blonde wig, It fitted perfectly on the head that he had taken off the manikin that he had found thrown out at the back of the shop. Putting the head down, he placed the wig on it and then picked up the scissors. He had to be careful how he cut her face out of the picture he couldn't afford any mistakes, it had to be perfect just like her.
