

The Natural Home

The Natural Home is a place where natural materials and motifs are the key elements of a decorating style that is a joy to live with and a joy to behold. Influential art director and stylist Hans Blomquist starts off by exploring the essence of his style. In *Texture*, he revels in the textures and patinas of natural materials. *Still Life* reveals Hans' passion for creating displays that showcase treasured pieces, while *Plants and Flowers* celebrates the beauty of nature and the cycles of the natural world. *Colour* presents his favourite earthy, natural colour palette, which provides the perfect backdrop for hits of brighter natural hues. In the second part of the book, *Homes*, through a series of case studies, Hans explores houses and apartments that showcase the beautiful simplicity and elegance of the natural look.
