

The Gita is a holy book. One needs to read everything in it carefully, one step at a time. Read the first verse, understand it, implement what is good for you (which given that this is the Gita, is everything that you understand from it), and then when ready move to the next verse. Well, you are Hindu, so it will not be difficult for you to understand and implement straightaway the implications of the first chapter. Mostly this has to do with being polite at all times, however you are provoked.
