

The Blue Book: A Novel

From one of the U.K.'s most dazzling novelists — whom Richard Ford has called a profound writer — comes this daring new novel set in the unsteady, self-contained world of a luxury liner. While on a transatlantic trip with her soon-to-be-fiance Derek, Elizabeth unexpectedly runs into ex-lover Arthur, with whom she shares a shady past: the pair once worked as traveling spiritual mediums who coned the vulnerable by pretending to contact the spirits of departed loved ones. While Derek remains seasick and cabin-bound, Elizabeth wanders the ship, alternately avoiding and seeking out Arthur. Unable to avoid memories of their fractured past, she must face the deception they practiced even as she accepts the peace they brought to the grief-stricken who sought their services. Intimately addressed to you, the listener, *The Blue Book* is both a portrait of two methodical con artists and a meditation on how love is a private language, a set of codes, to which the outside world ought not admit impediment (Telegraph). Irresistibly written, by turns comically wry and stunningly lyrical, with some of the most unashamedly erotic writing since Nicholson Baker first contemplated a telephone receiver (New Statesman), the book slowly, deliberately, and devastatingly reveals itself to the listener. The heartbreaking stakes are ultimately nothing less than fact and fiction, life and death.
