

Traveling The Path Back To The Road In The Sky: A Strange Saga Of Saucers, Space Brothers & Secret Agents

A STRANGE SAGA OF SAUCERS, SPACE BROTHERS, SECRET AGENTS AND ALIEN ASTRONAUTS THROUGHOUT ANTIQUITY George Hunt Williamson known as Brother Philip throughout the highlands of Peru, the jungles of South and Central America, and the arid plains of the Southwest traveled the longest highway in the world, leading him to discover a vast road into the sky that can be linked to the arrival of visitors from elsewhere in the universe throughout the ages. Within these pages are the stories of the Hopi Sun Clan, including the legends of the Giant Star. The secret of the Stone Tablets of Peru. The Time Spanners. The Beacon of the Gods. The Martian Miniatures. Fossils, Footprints and Fantasy. Evidence for the existence of the Silent World, and the reality of the Unholy Six. Also this is the book that gives: * Williamsons behind-the-scenes battle with the FBI and the Silence Group. * His investigation into the mysterious disappearances of Hunrath and Wilkinson, who might have been murdered or abducted by UFOs. * The accusations of smuggling and his association with a sexy flying saucer pilot whom the FBI identified as a ravishing woman commandant! Williamson, sometime in his life, must have come to realize that, in America, if you try to buck the status quo or change the system you can easily be slandered and identified as a dangerous dissident, whether you are called a communist, a fascist, or a neo-Nazi. Many of the contactees of the early UFO/New Age communities were unduly slandered, as was the man aka Brother Philip. It was also suggested that Williamson was a Mind-Controlled Soldier of the Soviet Union, a label he found difficult to shake off during his years of fighting with the system. How he persevered in spite of all this undeserved conflict makes for a story of true UFO heroism.
