

The Brave Little Parrot

When a raging fire threatens to burn down the forest, all of the animals run away in fear. All except for one brave little parrot, who has an idea. Help me, she cries to the elephants, beseeching them to fill their trunks with water to spray on the flames. Help me, she begs the cheetahs, even as they urge her to flee and save herself. But the brave little parrot will not be daunted. Can the determination and courage of one small bird be enough to save a forest? Susan Gabers majestic illustrations and Rafe Martins lyrical retelling bring to life an inspiring tale from ancient India that will speak to todays readers.
