

The Dawn of All

A mysterious priest who cannot remember his own name, nor even anything of the past, must make his way as a Monsignor in a world undergoing a dramatic transformation in preparation for the return of Christ. The world itself becomes an image of the priest's soul. Benson himself writes: In a former book, called LORD OF THE WORLD, I attempted to sketch the kind of developments a hundred years hence which, I thought, might reasonably be expected if the present lines of what is called modern thought were only prolonged far enough; and I was informed repeatedly that the effect of the book was exceedingly depressing and discouraging to optimistic Christians. In the present book I am attempting also in parable form not in the least to withdraw anything that I said in the former, but to follow up the other lines instead, and to sketch again in parable the kind of developments about sixty years hence which, I think, may reasonably be expected should the opposite process begin, and ancient thought (which has stood the test of centuries, and is, in a very remarkable manner, being rediscovered by persons even more modern than modernists) be prolonged instead.
