

The Emerging European Union

Surveying the European Unions evolution from the Rome Treaty to the present, The Emerging European Union captures the full story of Europes ongoing integration, its changing identity, and its increasing importance as a global actor in the 21st Century. This texts concise but comprehensive overview of the history, institutions, and policies of the European Union lays out the major elements of the European integration and explain how the European Union functions. Emphasizing competing intergovernmental and supranational forces, The Emerging European Union explains the origins and future of the European Union as well as its political uniqueness.
