

## Vendetta (The Runestone Saga)

Book I of the Runestone Saga ends with a terrifying reversal. The grandfather who showed Sky how to use the power of the runes to travel back in time, revealed his secret plans which turn out to involve murder and possession. Sky must now find a way to fight his powerful teacher for his cousins very soul. And so he travels to Corsica, home of his other forbearers, hoping to find some knowledge, some power. The blood feud of vendetta still runs hot in Skys family, as does the supernatural power of the Mazzeri. The Corsican dream hunters of death. Sky must again travel back through time, inhabiting the life of Tza, a fierce girl from the 1500s. As he sinks into Tzas mind, Sky wonders. Are all of his ancestors murderers? Vendetta is a heady, exciting blend of supernatural possibility and historical truth that will leave readers gasping for the final installment of the trilogy. From the Hardcover edition.
