

## Taken from Below: Monster Erotica

Captain its not a trap, its some kind of thing! There are darker things than greed lurking on 6469 Shatabhisha IV. Katrika Tyllius has been sent to complete a routine surveying task on the satellite of a distant system. A task for which she is woefully unprepared. When a strange alien life force emerges from the dust of the far-flung moons surface she is utterly defenseless. Abandoned to the creatures mercies, Katrika has no choice but to let herself be subject to its alien lust. Excerpt:

The creature continues to squeeze and fondle her body through her suit, its limbs wrapping around her pelvis and growing to a frenzied pace. The feeling of it moving over the lips of her nurtures the feeling of warmth growing in her core, and deep inside her she could feel her muscles beginning to tighten and spasm. It would figure that the only thing to make her cum in the last six months would be some alien life form. ... The muscles inside her body spasm and squeeze at the tentacles penetrating her while her skin tingles underneath the touch of the legion of limbs writhing over her body. They thrust themselves inside her suit to press against her naked flesh. (For more excerpts, take a peek inside the book. The contents are just too hot to post here!)
