Penny Birch at her brand spanking best. Isabelle Colraine is in her third year at Oxford and an out and proud lesbian, indulging her private obsession with domination with a few select friends. She has put her past behind her, and most especially the assorted indignities, punishments and humiliations she was put through while struggling to achieve her goals. Unfortunately for her there are others who have not forgotten what she used to do: Portia, an upper-class brat who refuses to accept Isabelles dominance, Sarah, who believes the right to dominate another woman has to be earned with age and maturity, and worst of all, Stan Tierney, an older man who wants to take advantage of her and wont take no for an answer.
